Meticulously conceived and masterfully executed, this rare residential offering, an authentic European design within the guard gated community of Estancia, beckons one to explore every visual delight and is reminiscent of travels to quaint villages in Provence. The premium lot placement offers majestic Pinnacle Peak and golf course views, yet an intimate sense of privacy prevails. Every detail of every room- the gourmet his/her chef's kitchen which opens to dramatic family room, the seamless indoor to outdoor living of the conservatory, the romantic and private master retreat, the separate formal dining room with authentic wine cellar has been scrutinized to provide a delight to the eye, while maintaining a very "livable" home. Best in show, definitely.
